

Salesforce Developer Virtual Internship

Introduction

I'm Madaka Anirudh Varma studying in Gokaraju Rangaraju Institute of Engineering & Technology 4th year .Doing sales force virtual internship through AICTE.

PROJECT OBJECTIVE

Here the project outcomes are to gain full knowledge about sales force company and to know how to development tools work hear and to gain full hands on experience and knowledge about devops.It is a 30days internship program to provide full hands on work experience by completing the given tasks

PROJECT ACTIVITIES

Hear through trailhead I have learned about the sales force company how it works ,it's structure ,format and so on .also gained knowledge about what the company does and many more .I have completed all the required tasks and gained full hands on experience on the developer role in the company on how to develop a platform, create it edit it and many more .

By learning all these tasks I also tackled the **APEX SPECIALIST -SUPERBADGE** and **PROCESS AUTOMATION SPECIALIST - SUPERBADGE** and completed them easily it took an total duration of 100hours to learn all the requires and gain the super badges.
